

Inside Passage Veteran

Wayward Sun

is

For Sale

\$195,000

In 2021 Wayward Sun was the first 100% solar boat through the Inside Passage from Bellingham, WA to Glacier Bay Alaska. She is for sale now so we can continue to innovate cutting edge solar boats.

All Solar Sal Boats Feature:

The End of Range Anxiety

- Unlimited daytime range
- *Wayward Sun* has 70-100+ nm in the battery depending on speed

Carbon Free Boating

- No carbon emissions
- No gas, diesel or oil to burn or spill
- No water pollution

Outstanding Experience

- Quiet – enjoy conversation and the sounds of water and nature
- Smooth – displacement stability
- No odors, fumes, or toxic gases
- Low underwater noise

Low Maintenance and Operating Costs

- Free fuel forever
- No fossil fuels, no oil changes
- No underwater through hulls

Vessel

100% Solar Electric by [Solar Sal Boats](#)

Patent Number: 10,875,608

Custom wood design and impeccably built by [Devlin Boat](#)

Length Overall: 29' 1" including swim step

Beam: 8' 2" Draft: 1' 9"

Displacement: 3600 lbs

Top Speed: 6.5 knots

Cruising speed: 5 knots

Sleeps: 2 in cabin +2 more in a pinch

Head: [Laveo](#) Dry Flush – no holding tank
clean, simple, no odor

Dinghy: 6' Devlin designed, Borton built
with [EP Carry](#) electric motor

System

Solar: 12 Solbian 144 Watt panels
1,728 Watts total

Batteries: 6 Torqeedo Power 24-3500
21,000 Watt hour capacity

Motor: Torqeedo Cruise 4.0 pod drive

Victron MPPT solar charge controller

Victron Quattro inverter/shore power charger

Equipment

Garmin GPS Map 94 Chartplotter

Garmin VHF radio and 800 AIS

Iridium Go satellite comm w/ marine antennae

2 anchors, 2 folding tables, big Yeti cooler
